

You have assigned the numbers below for use in a simulation. Give an example of the situation they could model.

0 1 2      3 4 5 6 7 8 9

Name a situation for which the spinner below could be used as model.

You have entered the following array into your calculator:

`RandInt(0, 9, 6)`

After two trials, your display looks like this:

`{3, 4, 6, 8, 2, 5}`

`{5, 1, 0, 7, 2, 7,}`

Describe a situation this simulation could be modeling.

Below are the results of 5 trials tossing three coins at a time.

Describe a situation that this simulation could be modeling.
